Those present were: Misses Lula Hardin, Mona May, Ora Ferry, Mary, Ida and Myrtle Lambert, Messrs. Beecham, Wloughshiv, Mink, Style and Mont Ferry, Dave and Aud Lambert, and William Cox. Those present report a pleasant time.

THE MEETING OF STATE TEACHERS

At Louisville An Interesting Occasion.

ATTENDANCE MUCH GREATER

Than At Any Previous Time
and Great Interest Was
Manifested.

TALKS BY NOTABLE PEOPLE

R. L. McFarland, Superintendent of Schools of Owensboro, was elected president of the Kentucky Educational Association at the forty-third annual convention of the organization in the First Christian church, Fourth and Breckenridge streets, Louisville, Thursday morning.

Dudley B. Starns, Superintendent of Schools of Bath county, was chosen first vice president, Miss Katherine Christian, of Lexington, Ky., second vice president, and Miss Ella D. Shawney, of Washington county, third vice president.

T. W. Vinson, of Frankfort, was re-elected secretary for his seventh consecutive term. G. M. Money, of Shelbyville, was chosen treasurer.

The other two members of the Board of Directors were named as follows: J. P. W. Brouse, of Somerset, and J. W. Welch, of Henderson.

The attendance Thursday was larger than at any time since the meeting was called to order. The actual enrollment is now 3,277 members, or more than three times the number at this time last year.

The Rev. Dr. E. Y. Mullins, president of the Southern Baptist Theological Seminary, had charge of the devotional exercises.

Acting upon a motion made by Supt. T. L. Coate, former president of the Kentucky Educational Association, the assembled delegates decided by a unanimous vote to present to the president, Mrs. Cora Wilson Stewart, a badge of honor as a token of their appreciation of her efficient and valued services during the past year. "I am taking advantage of the president's absence," said Supt. Coate, after obtaining recognition of Second Vice President Clifford, who was presiding, "to place before the association a suggestion to recognize the great work which Mrs. Wilson has done during the year just past." The motion was received with enthusiasm by the delegates. A committee composed of Supts. Coate, Reubens and McDaniel, was appointed by Mr. Clifford to secure the badge.

The first address was delivered Thursday by F. C. Button, of Frankfort, Second State Supervisor of Rural Schools, on the subject, "Our Schools, Our Children, Our Industries." Mr. Button briefly reviewed the present condition of the rural schools and detailed his plans for the future. "Let this be our motto for the coming year," he concluded, "Every child in school, every man at work, every woman on guard."

"The Teaching of Social Ethics" was the subject of the next address, by Dr. Elizabeth Campbell, of Cincinnati, O. The speaker discussed family life as the highest gift of civilization, the evolution of this institution, and the relation of biological study in schools to the appreciation of family life in its highest sense.

At the conclusion of Dr. Campbell's remarks "The Song of the Leaders," composed for this meeting of the Association by Miss Lella E. Partridge, of the Eastern Kentucky Normal School, was read by the author. Copies of the poem were distributed among the members, and after the reading, it was sung by the audience.

Following the song, Mrs. Edith Smith Davis, of Wisconsin, superintendent of department of scientific temperance instruction and investigation, World's and National Woman's Christian Temperance Union, spoke on the "Relation of Temperance to Education." Mrs. Davis said that the public school is the machine that is to make a temperate people of America and especially is this necessary in the assimilation of immigrants into the national life.

"The Value and Influence of State Normal Schools," was the title of the next paper, presented by M. O. Winfrey, Superintendent of Schools at Middlesboro; M. A. Cassidy, Superintendent of Schools at Lexington, on "The Reorganization of Urban Education;" Harry A. Sommers, editor of the Elizabethtown News, spoke on "The Press and the Public Schools;"

John B. McFarren, of Louisville, spoke on "The Thirty and Nine."

"School Improvement" was the general topic for the afternoon. The first paper was presented by Miss Elizabeth Henry, of Crofton, whose subject was "How a School Improvement League May Be Instrumental in Establishing a County High School." "How School Improvement Leagues May Change Educational Ideals in a County" was the title of a paper presented by P. McJ. Williams, of Williamsburg. Miss Marie Cromer, of Alken, S. C., closed the speaking program with an account of the "Girls' Tomato Clubs," which has been so successful in organizing.

"The Changing World" was the subject of an address before the association by Dr. David Starr Jordan, president of Leland Stanford, Jr., University. Dr. Jordan said in part:

"The same old loves, the same old hates and the same old world exist," declared Dr. Jordan, "but the relations of the world have changed. There has been more change in the world since the time of Bismarck, forty years ago, than there was from the time of Attila the Hun up until Bismarck's time."

"This is no age when ignorance is bliss. The prosperity of this nation depends upon its people's intelligence. The stream of life has changed. It runs surely but not evenly."

Referring to the teachers, Mr. Jordan urged them to teach children to do little things well, so that when the children grow up they will be able to do larger things. The movement of the world, he asserted, has been for a better understanding.

The Rev. Dr. Newell Dwight Hillis, pastor of Plymouth church, Brooklyn, N. Y., spoke on "The America of To-day and To-morrow." He said in part:

"There is living space in the United States for one thousand million people; Texas would support Australia, Canada, Alaska, the United States and the Philippines, and then could put out 'for rent' signs and hold out a hand to European peasantry."

"In the old days the people farmed with their hands; to-morrow they will farm with their heads. The man that takes the raw pig iron and manufactures it into the finest watch spring, is worth \$10,000. It is necessary to have education to do this."

"Judson says we are going over the Niagara Falls, because of trouble between labor and capital. I do not believe this. I am an individualist to the last minute."

"There are many who speak ill of the foreigner. We should not do this. America's public school is America's stomach to digest the foreigners. I am not afraid of the foreigner as much as I am afraid of the broken down sons of American ancestry."

REAL WORTH OF RELIGIOUS FORCE

Is Found In All the Walks
Of Everyday Life.

THE ACTIVE CHURCH MEMBER

As a Rule, Seldom Commits
a Crime, According
To Statistics.

JUST AS A MATTER OF FACT

A Brooklyn Judge bears testimony to the powerful influence of the church in curbing crime in his announcement that in 2,700 cases that have been brought before him in five and a half years, he has never had to try a man who at the time of the alleged offense, or ever, had been an active member of a church.

One sauntering along the streets, of a Sunday, in these days of open doors of places of worship, may casually note that some present many empty pews, while others have their seating capacity thoroughly tested. But whether the attendance be great or small, the observer will note the religious calm, the respectful attention, whether to the intoning of the priest, the singing of the choir, the notes of the organ, the reading of the ritual, the prayer or the exhortation or argument of the minister. There is refreshing quiet from the ordinary turmoil of life in the surroundings of the place of worship which cannot fail to make for the good of mankind.

While we know that in many instances outside the experience of this Brooklyn Judge, crimes have been committed by professors of religion, and that ministers, preachers and priests have been exposed and unfrocked, all of us do know, all of us have long felt, the immense influence for good in the various forms of religion. Greater

than all the police power of the world to restrain the vicious and to make life possible, is the influence of the training of religion. There are cults that may work mischief, but most of the forms do incalculable good for mankind.

The growth of church influence seems to be in proportion to the growth of population in the United States. While in many country districts there may be seen abandoned houses of worship, because owing to the facilities of traction lines the people take to worship in the near villages and towns, still the building of church edifices keeps on, although the average seating capacity of Protestant churches is three times the average membership. With the Roman Catholic Church the seatings (accommodation being made possible by the numerous services) are not half as many as the membership. Enumeration of the communicants of religious denominations in the United States is about as follows, by millions: Catholic, 13; Methodist, 7; Baptist, 6; Presbyterian, 2; Protestant Episcopal, 1; Lutheran, 2½; Congregational, 1½; other denominations and cults, 2.

The influence of the church and of prayer continue for our present good. Prayer is good, whether in the secrecy of the closet or in the regular forms of church worship, or even in the opening of a national convention threatening turbulence. Were it not for the forms of religion, the honest and heartfelt observance of them, or even the merely formal recognition of their tenets, what would become of us? [Cincinnati Enquirer.]

THE INTERESTS OF AMERICANS

In Cuba Amount to Nearly \$200,000,000.

IMMENSE SUM IS INVESTED

In Various and Very Profitable Industries on the Island.

OTHER FOREIGN INVESTMENTS

While the United States has assumed responsibility for Cuba before the civilized world, the immediate object of this Government's activities in the island republic just now is the protection of American-owned properties, amounting in value to something like \$200,000,000.

A battleship fleet with much more lifting power than was possessed by the entire naval force stationed off the Cuban coast in the war with Spain is now in Cuban waters for the purpose of affording protection for American property. More than a thousand United States marines are encamped on Cuban soil guarding American property. Half a score of auxiliary naval vessels are busy on the same errand, and thousands of additional marine and blue-jackets are ready to join their comrades already acting as guards. Behind this great force is the rest of the Atlantic battleship fleet, ready to sail for Cuba on a few hours' notice, while an expeditionary force of soldiers has been designated by the army for possible service in Cuba.

Accurate estimates of the total value of American interests in Cuba are difficult. It is believed that the American investments of all classes in Cuba to-day aggregate from \$180,000,000 to \$200,000,000. This is probably one-third of the total

amount of foreign capital invested in Cuba. Spanish holdings in Cuba are larger than the American investments, while there is a great deal of British, French and German money invested there.

A recent estimate of American interests in Cuba made the following classification of investments: Railways and tramways \$40,000,000 Sugar and tobacco.... 90,000,000 Rural and city projects. 25,000,000 Minor products..... 7,000,000 Commerce and manufacture..... 3,000,000 Banks..... 6,000,000 Steamships and mortgages..... 7,000,000 Mines..... 5,000,000

It is difficult to estimate many of these investments. For example, it would be next to impossible to trace out the capital listed as being invested in banks, mortgages and the like. Loans, bond purchases and such forms of investments are likely to lose themselves in the great maze of commerce, industry and finance. Yet the value of investments of this sort rests, even more than mere tangible forms, upon the stability and solvency of the Government and the maintenance of law and order.

American capital owns the electric railway system of Cuba, the telephone system and most of the electric lighting plants. These holdings are principally in Havana, and have been little menaced in the present troubled state of affairs in Cuba.

Similarly the great tobacco companies, the cigar and cigarette factories, require little or no attention from either the United States Government or that of Cuba. They are located principally in the cities, and the tobacco growing districts have not yet been affected by the negro rebellion.—Washington Cor. New York Sun.

C. C. GIVENS, President:

J. A. FRANCEWAY, Secretary.

KENTUCKY GOT HIGH HONORS

Senator-Elect James For Permanent Chairman.

AFRAID KENTUCKY WOULD GET

Too Much, and So Woodson Was Dropped for Permanent Secretary.

GOV. MCCREARY WAS PLEASED

Baltimore, June 26.—Big Otis James, Senator-elect from Kentucky, has been selected by the Committee on Permanent Organization to preside over the National Democratic Convention as permanent chairman. The honor went to him without a dissenting vote.

"I would not have accepted the recommendation at the hands of the Committee on Permanent Organization had it not been tendered to me by the unanimous vote of the committee," Mr. James said. "I naturally feel proud of the honor that has been conferred upon me."

Besides Senator-elect James' name, those of Gov. John Burke, of North Dakota; Senator John W. Kern, of Indiana, and Theodore Bell, of California, were placed in nomination before the Committee on Permanent Organization for permanent chairman. Committeeman Kehoe, of Kentucky, informed Committeeman Barr, of Rhode Island, that Senator Kern had been made chairman of the Resolutions Committee, thus eliminating the Indiana man from the race for the permanent chairmanship of the convention. Committeeman Kimball, of Maine, then withdrew the name of Gov. Burke, after which the name of Mr. Bell was withdrawn, leaving Senator-elect James without opposition. It is said that before the name of Senator-elect James or those of the others mentioned were placed in nomination before the committee, that body offered the permanent chairmanship to Mr. Bryan, but he declined to accept it.

After Mr. Kehoe had placed the name of Mr. James in nomination, Samuel Alschuler, of Illinois, inquired whether Mr. James, if agreed upon by the committee, would have time to prepare a speech before the convention.

"Mr. James is at work on his speech right now," Mr. Kehoe replied, "and has it almost completed."

"A speech prepared by that splendid Kentuckian shall not be prepared in vain," Mr. Alschuler said, and he immediately seconded the nomination. Others who sec-

onded the nomination of Mr. James were representatives from Tennessee, Iowa, Indiana, Montana, Arizona, California, Connecticut, New York, Texas and Ohio, respectively.

Because Urey Woodson, secretary of the National Committee, and temporary secretary of the convention, is a Kentuckian, another was agreed upon by the Organization for permanent secretary of the convention, the members taking the position that it would be bad politics to give too much to Kentucky. Mr. Woodson, who was defeated in his race for National Committeeman from Kentucky by John C. Mayo, will continue as secretary of the National Committee until after the convention has been adjourned since die, when the newly-elected National Committeemen will meet and organize.

Gov. James B. McCreary, chairman of the Kentucky delegation, said to-day that the selection of Senator-elect James by the Organization Committee was a happy one.

"His name was placed in nomination by J. N. Kehoe, named as Kentucky's representative on the Permanent Organization Committee by my friends who are in the majority," the Governor said. "That which tends to make Mr. James the logical man for the place is the fact that he is a warm personal friend of Mr. Bryan, who went down to defeat yesterday for temporary chairman, and is one of the original Champ Clark men."

SOMETHING OF THE NORTH-WEST

And Description of Its Farming Conditions.

USUALLY PROSPEROUS TIMES

With the Agricultural Classes Who Employ Improved Machinery.

A WELL ORGANIZED A. S. OF E.

Granite Falls, Minn., June 27, 1912. Editors Hartford Herald:—Thinking that possibly a few lines concerning this North-west country might be of interest to your many readers, I will try to pen a few observations.

Leaving home on May 29th, I arrived on the 31st at Olivia, Minn., where I was to locate for possibly two weeks, for the purpose of working for the A. S. of E. in Renville county. At this town our people have a splendid flour mill which has proven quite a good thing for the membership, as they have been able to buy flour and feed direct from the mill in many cases in car-load lots, which has saved to the membership quite a lot of money.

This in many respects is a great State. The great, broad prairies, divided up into the thousands of nice fertile farms, is surely quite a fascinating sight to one accustomed to the small hillside farms of our part of Western Kentucky. Here, where there is nothing to do to start farming except to get up your equipment and go to plowing; where nearly all kinds of farm work is done by machinery upon which the operators can ride while they do their work, is surely quite a different proposition to what a great majority of our Kentucky farmers are up against.

And the results are surely very perceptible to any one traveling over this country. The comparatively fine farm buildings, the great amount of live stock that can be seen in the pastures, and the seemingly general era of prosperity, the much more even distribution of the wealth produced among the people, all attest the fact that farming is much more profitable here than in many of the States further South. Here it seems that automobiles are more plentiful than are buggies in many counties in Kentucky.

The crops as a rule were not so good as usual in this State in 1911, yet we hear scarcely any mention of scarcity of money on that account. Crops here this season so far are fine except corn, which is rather late, owing to too much rain and the unusually cool weather that has continued until the last few days.

Summer seems to be coming in reality now, and as a result of the warmer weather, the rye and hay harvests will be ushered in in a few days. There is a great scarcity of farm laborers here and in fact all over this North-west country. As a result, farm wages are much higher here than in Kentucky. The long, cold winters of this North-west section of our country seem to me to be one of its greatest drawbacks, yet the temperature here in winter is much more uniform than further South, the winters are dry and therefore there is no mud nor slush to contend with—some of the things that make our Kentucky winters very disagreeable and unhealthy. With the good farm buildings and an abundance of feed for stock that is so common here, I really believe the people pass the winters more comfortably than in more Southern States.

The price of farm lands in this State runs from about \$10 per acre in the cut-over lands of Northern Minnesota to \$120 for the well improved farms of the Southern part of the State. Fuel and lumber are high priced in the prairie countries. This is coming to be one of the leading dairy States, which industry is not only very profitable in itself but enables the farmers to greatly improve the fertility of the farms that have been growing wheat for

years. This country is pretty well covered with a grass that looks exactly like Kentucky bluegrass and this, of course, is a great assistance to the dairy farmers and all those who are growing live stock.

As I must close, will say to our A. S. of E. people in Kentucky, that they will have to get a hustle on them if they expect to keep up with the procession, as these farmers out here are going right after co-operative business. We have three Equity flour mills in this State that are selling flour to the members at wholesale prices. Farmers' co-operative elevators are being established, stock shipping associations are being organized, &c. I have recently attended two large Equity picnics in sections where we organized during our winter campaign here the past winter. The doubting Thomases are beginning to sit up and take notice.

With best wishes to all my Kentucky friends, I am

Yours truly,
M. F. SHARP.

FRANK L. FELIX, Pub. and Prop'r.

Entered at the Hartford post-office
as mail matter of the second class.

It looks like the g. o. p. elephant
has stamped sure enough this
time.

The Republican band wagon
seems to have a running board on
either side for passengers to stand
on.

It is said that some of the Roose-
velt fellows are now talking about
changing the Republican appellation
to the d. o. p.

Roosevelt Republicans can now
appreciate how Democrats felt when
Samuel J. Tilden was defrauded out
of the Presidency.

Political lightning rods are now
all down, except the best conduc-
tors, which are being wired for
special connections.

In Teddy's organization of his
"new" party, just watch him ap-
propriate a large bunch of Demo-
cratic principles and policies.

Again the Republicans are trying
to appropriate some of our cam-
paign stuff. The bandanna hand-
kerchief is a relic of Allen G.
Thurman days.

Uncle Joe Cannon declares that
the choice at Chicago is "between a
bull and a carbuncle." Anyhow it
has developed into an awful sore of
national proportions.

According to the open statements
of both neither Taft nor Roosevelt
is fit to be President of these United
States. Let's agree with 'em both
just for this one time.

At last we have found out just
what a disreputable aggregation a
great part of the Republican party
is, and from one who is thoroughly
acquainted with the facts in the
case—Mr. Roosevelt.

One of the notable things about
Republican papers nowadays is that
—following a national convention
of their party—few of them carry
a Presidential ticket at their mast
heads.

The statement of Col. Roosevelt
that he could have been nominated
at any time if he had wanted to,
but refused it, sounds very much
like "sour grapes" or something else
that could be characterized by a
"shorter and uglier word."

"The moving finger writes; and
having writ,
Moves on; nor all your piety nor
wit
Shall lure it back to cancel half a
line."

Respectfully referred to those
who would ponder the proceedings
of the recent Chicago Republican
convention.

Not as in any sense a probability
but merely as an incident produc-
tive of the hope of the recent as-
semblage of Republicans in Chic-
ago, it might be mentioned that three
Vice Presidents have been re-elected.
No doubt you have forgotten even
the names of these gentlemen. They
were George Clinton, Daniel
D. Tompkins and John C. Calhoun.

From the reading of the prayers
delivered by different clergymen at
the opening sessions of both the big
political organizations lately, it
would seem that they were uttered
more for linguistic and oratorical
effect, (knowing that they would be
published) than as an humble ap-
peal to the Almighty. But they
were appropriate and it is hoped, ef-
fective.

Mr. J. P. Whittinghill, an erst-
while special revenue agent of the
State, of Glendean, Ky., has come
out as a Republican candidate for
Congress in this district to oppose
Congressman Ben Johnson, who will
have no other opposition. Mr. Whit-
tinghill is known as a Taft follower,
but he will probably not be able to
use any of the notorious Chicago
methods in his race.

The tariff is going to be per-
haps the principal issue in the national
campaign now on. In Congress,
this matter, in connection with the
protection accorded the big trusts,
has split the Republican party in
two, while the Democrats are
practically united in the premises.
"Tariff for Revenue Only" will be
the slogan of the Democrats, in
which they will be joined by thou-
sands of former staunch Republi-
cans, as embraced in the working
classes and their leaders, who see
no protection for themselves under
our present tariff laws.

Perhaps Hartford's greatest need
is a few new manufacturing plants
—some one or more institutions
paying out ten or twelve thousand
dollars a month to employees, which

would mostly be spent here and
which would cause a larger circula-
tion of money. This is the life of
any business community. Usually
such enterprises need some induc-
ement to locate at a certain place.
We would again suggest that our
city council pass an ordinance re-
lieving any such new enterprise lo-
cating here from municipal tax for
a period of five years. This would
do no harm and might help some.

DRASTIC PROVISIONS OF THE NEW GAME LAW

The new hunting law went into
effect recently, and it is now un-
lawful to hunt without a license ex-
cept on your own premises, owned
or leased. The law also applies to
seining, trapping or dynamiting
fish. The penalty is a fine or im-
prisonment, or both, and the confis-
cation of the outfit captured. Res-
ident hunters that have lived in the
State twelve months preceding, may
obtain a license by paying \$1. Non
residents must pay \$15. They are
issued by the county clerks, on prop-
er application, who will furnish
blanks for the purpose.

All persons hunting without a li-
cense in possession, ready to be ex-
hibited to anyone demanding same,
will be subject to fine of not less
than \$10 nor more than \$25. Li-
censes are not transferable. Any
person who shall make to an officer
authorized to issue hunting license,
a false statement, or change or alter
his license in any manner, shall be
punished by a fine of not less than
\$50 or more than \$200 to which
may be added imprisonment in the
county jail.

He had better pay one little dol-
lar and be a good, law-abiding citi-
zen, and at the same time help to
protect the fish and birds. The law
is also very stringent in regard to
killing song birds.

THE HOUN' DAWG PLAINLY SEEN IN A BIG SUN SPOT

Washington, June 29.—Private
views of the sun taken here today
show that the enormous cavity in
the photosphere of the sun is in the
shape of a houn' dawg, and it has
been designated "Spot" by Prof.
Asaph Hall, in charge of the U. S.
Naval Observatory.

This sun-dog spot is 14,000 miles
long, including the tail, and has an
area of about 90,000,000 square
miles, this being one mile to the
good for every inhabitant of the
United States.

Prof. Hall and Peters say it is
only a small spot, but they admit
"it is about five times the width of
the United States from coast to
coast, or a trifle less than that."

The theory of all astronomers is
that sun spots influence terrestrial
affairs.

Closing Out Sale.

On July 8th Mr. W. W. Duncan,
Administrator of the late D. M.
Duncan, will begin a closing out
sale of the entire stock of general
merchandise goods of D. M. Duncan
& Son, McHenry, Ky. This stock
will be closed out at and below cost.
Anyone desirous of starting a mer-
chandise business will do well to
see Mr. Duncan, as he will sell all
or any part of this splendid stock
and fixtures. 2612

Quarrel Leads to Killing.

Brandenburg, Ky., June 28.—J.
G. Cox, who runs a country store at
Pleasant Grove, seven miles from
here, shot and killed John Dowell
during a quarrel this morning.

It is said the men had been part-
ners in a lumber deal, and that the
killing occurred when an argument
arose over a settlement connected
with the business.

Stimulate Children?

Ask your doctor how often
he prescribes an alcoholic
stimulant for children. He
will probably say, "Very,
very rarely." Ask him how
often he prescribes a tonic for
them. He will probably an-
swer, "Very, very frequently."
Then ask him about Ayer's
Sarsaparilla as a strong and
safe tonic for the young. Not
a drop of alcohol in it.

Always keep a box of Ayer's Pills in the
house. Just one pill at bedtime, now and
then, will ward off many an attack of bil-
iousness, indigestion, sick-headache. How
many years has your doctor known these
pills? Ask him all about them.

THEY DON'T WANT ANY "PROTECTION"

Such As Accorded Work-
ers in Trust Plants

PRICES OF MUTILATED BODIES

Are Fixed by Trust—Women
and Children Most De-
sirable Workers.

"PROTECTION" IS ALL ONE WAY

(By C. H. Tavenner.)

Washington, June 29.—If in or-
der to be convinced that the pres-
ent policy of high protection is a
mistake, the American public shal-
ly demands evidence that workers
in the most highly protected indus-
tries receive no protection whatso-
ever, then the country will go over-
whelmingly Democratic this fall.
The evidence is accessible.

The Lawrence, Mass., strike re-
vealed that the men, women and
children workers in the great wool-
en mills—the most highly protected
industry of all—receive \$5.36
and \$7 a week wages for full time.
The Stanley Committee showed that
the workers in the blast furnaces
of the steel mills—the second most
highly protected industry—work 12
hours a day, seven days a week and
are miserably treated and under-
paid.

And now comes the most dam-
ning revelations of all in the report
of the New York State Factory In-
vestigating Commission, showing
that there are 296,000 women at
work in the highly protected fac-
tories of New York City, and that
the average wage of these women
toilers is \$5. The proprietors of
the factories told the investigators
time and again that they "use wo-
men in place of men wherever pos-
sible, as they are cheaper and do
not strike for better wages or con-
ditions."

The report of this commission
has been gone over and substantiated
by independent investigators
paid by a big New York newspaper.
Here are some of the ways the fac-
tory and mill owners "protect"
American workmen:

Boys' fingers, when cut off by
"punch" machines in the metal-
working shops, are quoted at \$200
the pair; amputated singly, they are
worth \$150.

Girls' fingers, when crushed by
the machines in box factories, are
not paid for, as the machines are
run at the risk of the girls.

Women, some gray-haired, stand
in the slaughter houses for ten
hours daily, stripping pork and
making sausages.

Women, some young and others
old, work at core-making in the
steel and iron foundries while they
breathe carbon monoxide, a poison-
ous gas, liberated by the ovens in
the same room.

Women polish marble with cor-
rosive acids in many of the marble
shops. This work would fix the
strength of a robust man.

Women, as a rule, work imme-
diately before and two weeks after
they gave birth to children, that they
may support the little ones after
they come into the world; they can
not afford to lay off.

Many thousand children are il-
legally employed long hours doing
the work of adults; children can
do some classes of work as fast
as men, and they work cheaper, for
\$3 or \$4 a week; in one factory the
entire output is made by children;
the only adult in the place is the
owner.

Men, women and children are
worked to the injury of their health
under the pace-setting, speeding up
and other features of what is known
as "scientific shop method" sys-
tems.

Query: The manufacturers who
use their help this way receive pro-
tection which enables them to build
up enormous fortunes, on the
ground they desire to "protect"
their employees. Since they are not
protecting their employees, why
should they be permitted monop-
olies on their products?

THE REQUIREMENTS OF EDITING A NEWSPAPER

Anybody, so tradition runs, can
be an editor. In spite of the well
known fact that where one news-
paper has survived, ten or more have
perished, thousands of men of all
professions would rejoice in an op-
portunity to take the editor's chair
and demonstrate their ability to im-
prove the paper's interest to the
public. These same men would not
expect or ask to enter any other
profession without long prepara-
tion.

As a matter of fact, the duties of
a responsible editor are more dif-

cult to master than those connect-
ed with any other profession, and
none demands a wider range of ex-
perience.

The capacity to write, alone, does
not constitute an editor. He must
possess a clear judgment of men
and affairs and the ability to ren-
der a decision on the instant. He
must see that nothing is missing in
the earliest authentic presentation
of the news. People demand the
news and will not read any paper
which prints sermons and dull es-
says to the exclusion of the things
which interest them. He must not
use his paper to exploit a fad, to
grasp a nomination or to help a
speculation. To the man who is
born to be a journalist, and is fit for
the business, the success and good
name of his paper is higher than all
these things.

What an editor of the first class
must have is a sense of proportion
in an extremely complicated busi-
ness, though marked aptitude is a
good foundation for it.

ROOSEVELT SAYS FULL TICKET WILL BE PUT OUT

Oyster Bay, N. Y., June 29.—
George W. Perkins, of New York,
and a delegation from Brooklyn
came to Oyster Bay yesterday to
confer with Col. Roosevelt in re-
gard to the organization of the Pro-
gressive party. The Colonel said
that plans for the party in New
York State are well under way.

"There will be a complete ticket,
from President down to School Su-
perintendent, in each district," he
said. In other States, he added, it
has not been decided what methods
will be pursued. This will be dis-
cussed at a conference with a num-
ber of men who were prominent in
his recent campaign. The Colonel
said he had received encouraging
reports from States in all parts of
the country.

"It doesn't make a bit of differ-
ence whom they name in Balti-
more," he continued. "But whoever
is named, our fight will be made
just the same."

ANOTHER OIL STRIKE AND BETTER THAN EVER

A 200-Barrel-a-Day Stream Developed at a Depth Of 1800 Feet.

Late Monday evening another oil strike was made by the Western Kentucky Oil Co., drilling about five miles east of Hartford, and this time it is the greatest and best of all. Indications are that it is at least a 200-barrel-a-day well, as repeated dippings seemed to prove. The oil was struck at a depth of 1,800 feet, and this is the seventh strike of oil in this well. The bailer, holding about 15 gallons, was let down in rapid succession and five barrels were taken out in 15 minutes without diminishing the flow in the least.

The oil in this well has already been tested by analyzing and found to be of the finest quality.

This is certainly good news to the people of Hartford and surrounding country and is a splendid reward for the oil company who have been so faithful, earnest and persistent in their undertaking.

PROPOSITIONS AS TO THE HARTFORD SCHOOL.

Right now, that we are determined to re-establish our school, we should thoroughly discuss among ourselves the plans to be adopted looking to the permanent establishment of a school that we may all be proud of.

Everybody who is a good citizen wants the best building possible, not only for the benefit of the youth of our community, but also, because in the absence of a good school in these progressive times, our homes and property will be greatly depreciated in value.

There are two plans suggested by which we shall emerge from the ashes. We have about a \$10,000 fund. One plan is to rebuild as far as possible on the old site, with such a modern building as our means will allow, constructing such an one as may be added to in future when more money is available. The other plan is to buy a splendid old residence and remodel same. As a citizen, the writer has much sentiment toward perpetuating the old residence as an educational institution, but can we deal fairly by our children with regard to proper sanitary arrangements and lighting facilities by attempting to convert the residence into a school building, for which purpose it was not originally intended?

Can we afford, now, at a time of scarcity of money, to buy additional grounds and abandon the old site? These are the questions that seem doubtful, both as an economical and sanitary proposition.

DEATH OF HENRY MARTIN, FORMERLY OF HARTFORD

Mr. W. H. Martin, for the past two years an employee at the Stimson saw mill, died of pneumonia at noon Wednesday at his home, 103 East Fifteenth street, Owensboro, after a critical illness of over five weeks.

Mr. Martin went to Owensboro from Hartford several years ago. He is survived by his widow and two children, Miss Ethyl Martin and Mr. Cecil Martin, all residents of Owensboro. Miss Ethyl is an operator at the Home Telephone Com-

pany. His mother, Mrs. Nancy J. Martin, of Hartford, two sisters, of Hartford, and one brother also survive.

The deceased was forty-seven years of age and was widely known in Hartford, where he was a member of the Knights of the Maccabees, whose membership superintended his burial here Thursday. Mr. Martin was a splendid citizen, a good workman and a man of conscientious principles who was well liked by all who knew him. He carried \$1,000 life insurance in the Maccabee lodge.

The West Kentucky Coal Company will build forty coal barges at a cost of \$100,000 at Paduch.

J. P. WHITTINGHILL IS A CANDIDATE

For Congress in the Old Fourth District.

IS A REPUBLICAN OF GLENDEAN

Roosevelt Men Are Trying to Organize Throughout the State.

JUDGE O'REAR HOLDS TEDDY

Frankfort, Ky., June 28.—The following candidates have filed petitions with the Secretary of State asking that their names go on the ballot in the primary election in August:

For Congress.

First District—Democrats, Jacob Corbett, Wickliffe; Denny P. Smith, Cadiz; John K. Hendrick, Paducah; A. W. Barkley, Paducah. No Republican candidates.

Second District—Democrat, A. O. Stanley, Henderson. No Republican candidate.

Third District—Democrats, John S. Rhea, Russellville; R. Y. Thomas, Central City. Republicans, George Baker, Central City; Thurman B. Dixon, Scottsville.

Fourth District—Democrat, Ben Johnson, Bardstown. Republican, J. P. Whittinghill, Glendean.

Fifth District—Democrat, Swagar Sherley, Louisville. Republicans, E. J. Ashcraft, Louisville; Matt J. Holt, Louisville.

Sixth District—Democrat, A. B. Rouse, already nominated. No Republican candidate.

Seventh District—Democrat, J. Campbell Cantrell, already nominated. No Republican candidate.

Eighth District—Democrats, Harvey Helm, Stanford; J. A. Sullivan, Richmond. Republican, J. W. Dinmore, Berea.

Ninth District—Democrat, W. J. Fields, Olive Hill. Republican, Harry Bailey, Cynthiana.

Tenth District—Democrat, E. D. Stephenson, Pikeville. Republican, John Langley, Pikeville.

Eleventh District—Democrat, Ben V. Smith, Somerset. Republican, Caleb Powers.

For Appellate Judge.

Seventh District—Democrats, C. C. Turner, Mt. Sterling; J. Smith Hays, Paintsville; T. B. Blakey, Beattyville.

For Commonwealth's Attorney.

Thirteenth District—Democrats, Emmet Puryear, Danville; W. S. Burch, Stanford. No Republican.

For State Senator.

Eleventh District—Democrat, Mitchell Vincent, Bee Springs. Republican, W. F. Coles, Bowling Green.

Will Follow Roosevelt.

Paducah, Ky., June 28.—David Browning, chairman of the McCracken County Republican Committee has returned from Chicago, where he aligned himself with the third party movement headed by Col. Roosevelt. Mr. Browning attended the informal meeting of the Roosevelt supporters, after the adjournment of the regular convention. He was appointed a member of the committee representing the State of Kentucky to notify Col. Roosevelt of his selection as the candidate of the new party. If the new party is organized, Mr. Browning says he will resign as a member of the McCracken County Republican Committee.

Roosevelt Men Busy.

Frankfort, Ky., June 28.—Efforts are being made in Frankfort to organize a branch of Roosevelt's proposed new party, and it is said that many recruits have been enrolled. The effort is directed mainly toward Republicans and most of those who were lined up with Col. Roosevelt in his fight for the Republican nomination for President are said to be joining.

O'Rear Bolts Roosevelt.

Mt. Sterling, Ky., June 28.—Judge E. C. O'Rear, who was the leader of the Roosevelt forces in Kentucky, will not follow the rough

rider in the organization of a third party, but will support the nominees of the Chicago convention. Judge O'Rear so stated to friends while here this week. He said that he was fighting for principle, but wanted the questions settled in the party; that he had been a Republican now too long to change.

MEXICAN REBELS ARE NOW SORELY PRESSED

At the Rebel Front, Bachimba, Mexico, June 28.—Government forces have dashed in behind the rebel army, a sharp skirmish raging throughout the night at Puerto de Pilon, near Horcasitas, eight miles north of Bachimba and but twenty-seven miles from the city of Chihuahua.

The Federals came from the west and are thought to be the vanguard of the big western flank movement designed by the Federals to cut off a rebel retreat to Chihuahua. Losses as yet are unknown.

The main columns of Federals are to-day moving north of Ortiz, fifteen miles south of Bachimba. The Federal artillery shelled the town of Mequil, demolishing a church, but no rebels were there to offer resistance.

A MODEST HERO.

Israel Greenberg, seven years old, was playing on the string-piece of Pier 21, East River, New York, when he tripped and fell into the water. A woman who saw him fall ran for help, and the first person she met was a neatly-dressed man who had come off one of the New Haven boats. The man dropped his valise, ran to the spot and dived into the water. He swam to the boy, and grabbing him, managed to get him aboard a sand barge. Patrolman Meyers found the man and the boy on the barge, and asked the man his name. "You don't want my name," said the man. "That isn't necessary. Just show me a place where I can change my clothes. That is all I want." The policeman called an ambulance and the boy was removed to the Hudson-street Hospital. Then Meyers led the rescuer to a seaman's lodging house. He took a suit out of his valise and put his wet suit into the valise, and went on his journey. Every effort was made at the lodging house to have the man reveal his identity, but he said: "I only did my duty; just a little thing unworthy of any notice in the papers or public praise." THE STATE PRIMARY LAW IS IN FORCE THIS YEAR

The Court of Appeals has decided the constitutionality of the Compulsory State Primary Law passed by the last General Assembly, and elections under its provisions will be held on the first Saturday in August of this year for members of Congress, for certain judges to fill vacancies, and for nominees for Appellate Judge in the Seventh District. Under the provisions of the law, all nominations of both political parties must be made in the primaries, which will be held in August of each year for the offices to be filled at the November elections of that year.

A hasty reading of the act would seem to indicate that the necessary safeguards have been thrown around the ballot to prevent extensive fraud. Only a practical test can indicate the defects which may be rectified by subsequent enactments. There is one provision that should receive an early remedy. A candidate desiring to run independently must get twenty per cent of the votes on a petition before he can get on the primary ballot, which will be practically impossible. This should be rectified at the next session.

On the whole, however, the State is to be congratulated on having on the statute books a safe and sane primary law.—[Bowling Green Messenger.]

Notice.

Green River District Union A. S. of E. will meet in regular quarterly session at Fordsville, Ohio county, on Thursday, July 4th, at 9 a. m. All Local Unions in the district should be represented by at least one delegate, and all members of county executive boards, together with District Board members, should attend this convention.

NEW EXHUMATION LAW BEING PUT IN EFFECT

State Pays All Expenses When Interested Parties Are Not Able.

Glasgow, Ky., June 28.—Great interest is being manifested, not only in Monroe county, where it happened, but in all adjoining counties, in the first case to develop under the new "exhumation law" passed by the last Legislature. The body exhumed was that of Smith Vaughn, who died very mysteriously at his home September 1, 1909. At the time of Vaughn's death members of his family believed he had been poisoned, and as time elapsed, circumstances have developed till at this time many citizens of that county share that belief.

Smith Vaughn was 57 years old and had always enjoyed good health. He was suddenly stricken with what was then believed to be general paralysis, and died in a short time. Three physicians were called in and all were of the same opinion, that general paralysis caused his death. Not satisfied, Alvis Vaughn, of this place, began to investigate the effects of certain poisons and found that many poisons produced symptoms similar to those which characterized his father's illness. He wanted a post-mortem examination, but felt unable to meet the expense. By this time the case was being talked all over Monroe and adjoining counties. During the last session of the Legislature Representative W. S. Smith and Senator Scott, from this district, with this case in view, framed and succeeded in passing the law by which the State pays all the expenses of exhuming where those interested are not able.

With the aid of the Coroner of Monroe and two physicians, Dr. C. T. Grinstead, of this place, and Dr. O. P. Hamilton, of Gamaliel, the remains were exhumed and such portions as were needed were removed and sent to the State chemist for analysis. The remains were again interred near Gamaliel, in Monroe county.

The result of the analysis is being awaited with much interest.

Foley Kidney Pills are healing, strengthening and tonic, and contain no harmful or habit-forming drugs. N. H. Gorman, Cashier Bank of Woodville, Woodville, Ga., recently had an acute attack of kidney trouble. "The pains in my back and kidneys were terrible, but I bought a bottle of Foley Kidney Pills and took them, and can truthfully say they have entirely relieved me. I find more benefit from them than from any other kidney medicine I have ever taken." Try them. Refuse any substitute. For sale by all dealers.

OUR CONSUMPTION OF CIGARS AND CIGARETTES

According to statistics given out by the Tobacco Leaf, there are consumed in the United States every day 21,718,448 cigars and 23,736,190 cigarettes, without including those rolled by the smokers themselves. These figures are large. Taken alone, they seem to confirm the fears of those who go about dreading the ravage of the cigarette scourge. But measured against the population of the country, they are seen to be small. They show a per capita consumption of less than a cigarette a day for the male voting population alone, and consider-

ably less than a cigar a day. It is therefore clear that we have not become so addicted to the cigarette habit as to make it a matter of concern to any considerable number of people.—[New York World.]

WRONGED CHILD TAKES HER OWN LIFE WITH ACID

Mt. Sterling, Ky., June 28.—Mae Bishop, aged sixteen years, who lived with George Anderson, Sr., on the levee pike, disappeared two days ago, supposedly with the intention of being married. Nothing was heard of the child until about noon to-day, when she appeared at the Anderson home unaccompanied. It is said she made some kind of confession to Mrs. Anderson, saying she would rather be dead than living. With that she walked away to a cabin, where she drank carbolic acid and died a short time later without regaining consciousness. The girl was an attractive child. Officers are searching for the man who is accused of being the cause of the trouble. The girl had lived with the Andersons for about seven years.

RUBBER HOSE WAS USED ON CRUEL WIFE BEATER

Beaver, Penn., June 28.—Thirty-five men, dressed as women and wearing masks, to-day took J. A. Bowman, a notorious wife-beater, of Bridgewater, from Officer Daniel Baker as he and Bowman were leaving the office of Justice of the Peace Fred Retzer, in Bridgewater, and after tying the officer to a fence, they conducted Bowman to the ball grounds, where he was stripped and beaten with a piece of rubber hose.

Bowman was then escorted to his home, with a warning that the next offense would mean a "finishing" job.

Bowman was arrested by Police Officer Daniel Baker on the charge of beating his wife. He was taken before Squire Retzer, who, after hearing the case, told Officer Baker to take Bowman to his home, and if his wife said it was all right, for him to stay there, it would be satisfactory.

If she refused to allow her husband to remain, then Baker was to place him in jail.

Immediately after Baker and Bowman stepped outside the office, they were seized by the masked men.

GREAT TREE PLANTING BY KENTUCKY COUNTIES

At the State Capital is To Be Arranged On Scientific Lines.

Lexington, Ky., June 28.—Prof. H. Gorman, of State University, who is State botanist, has been chosen to prepare a complete list of the native trees of Kentucky and to select from this list a tree indigenous to that particular locality for each of the 120 counties of the State, to be planted on the State Capitol grounds at Frankfort, where it is proposed to form a great arboretum typical of the forestry wealth of the State.

The original idea was to have each county donate a tree, but it was soon found that many trees of the same variety would be sent exclusive of others and the Fayette County Committee, composed of H. F. Hillemeier, the noted nurseryman; Prof. H. Gorman, State botanist, and Joseph W. Porter, secretary of the Lexington Park Commission, are entitled to credit for submitting the systematic and State-wide plan to the tree-planting commission which has received the approval of the Governor. It is now planned to have every county in the State represented at the tree planting on the Capitol grounds provided for by the Garnett resolution, and a suitable day, probably Arbor day, will be selected and appropriate exercises mark the unique event.

RESOLUTIONS OF RESPECT

First, We humbly submit to the will of the Supreme Commander, who called Sir Knight Henry Martin, from Hartford Tent No. 99, Knights of the Macabees, to that Supreme Tent above.

Second, We have lost a faithful Sir Knight in Henry Martin—a man who was always, when in our city, present at every Review, and we earnestly request every Sir Knight to emulate his virtues, and to strive to meet our God, who does all things well.

Third, We extend to his family our heartfelt sympathy, for we loved him as you do, because he was our brother.

Fourth, We recommend that the usual badge of mourning be worn for thirty days, and a copy of these resolutions be printed in each of the county papers, also the Bee Hive, spread upon the minutes of this Tent and a copy given to the family.

GRADUAL EVOLUTIONS OF THE ELEVATOR BOY

The first day he is occupied mainly in learning how to run his elevator.

The second day he is so delighted with his position that he makes every effort to give all the information asked of him.

The third day he gets his uniform and begins accustoming himself to telling the passengers to step lively.

The fourth day he learns how to advise anxious inquirers to look at the bulletin board or ask the starter.

The fifth day he is so thoroughly versed in the duties of his position that he can run the car past people who are yelling "Down!" or "Up!" and three floors away from them wait back the gentle admonition to punch the bottom. Also, he is now able to carry the nervous passenger two floors too far and then refuse to go back.

The sixth day he is an adept, and demonstrates it by sliding the door quickly in the face of the man who is a second late, also by atopping the car and dropping a couple of floors to take on the stenographers with huge blonde rats, who haughtily omit pressing the button.

He is now a real elevator boy, and wonders what right the public thinks it has, anyway.

In the days of high cost of living, a medicine that gets a man up out of bed and able to work in a few days is a safe and valuable remedy. John Heath, Michigan Bar, Cal., says: "I had kidney and bladder trouble for nearly six years and was confined to my bed, unable to turn without help. Soon after I commenced using Foley Kidney Pills and was relieved at once." His example is worth following. Foley Kidney Pills will do for others just as much as they have done for John Heath. Try them. For sale by all dealers.

DARK WEED GROWERS ARE SLOW ABOUT PLEDGING

For Another Tobacco Pool This Year—Various Reasons Are Assigned.

Hopkinsville, Ky., June 28.—A crisis seems to be at hand in the affairs of the Planters' Protective Association of Kentucky and Tennessee, and there are indications leading to the belief that the organization is in danger of dying. The Planters' Protective Association was formed at Guthrie, Ky., in September, 1904, and has been one of the most active of the several organizations of farmers that were formed to fight the Tobacco Trust by pooling their crops and holding them for an agreed price. At one time it controlled above 60,000 hogsheads of tobacco, and even last year its sales ran to nearly 40,000 hogsheads.

But several things now seem to threaten it. One of the strongest of these is the evident disposition among the members to no longer hold the organization together, and, as they claim, keep the price of tobacco up so that the outsider really gets the benefit. Another probable cause is the growing popularity of the plan of selling tobacco loose instead of prizing it and holding it. Under the loose sales method the farmer sells his tobacco early, or whenever he desires, delivers it at convenient periods and is saved the annoyance and expense of prizing. Still another reported cause is that the members are not satisfied with the prices they are now getting for their last year's crops, which are now being sold.

Rumors are being circulated for the crop now growing, but from many counties the reports are that the farmers are very slow in signing. In Trigg county there is very little encouragement being met with, and the same is true elsewhere.

DEAD MAN'S EPIGRAPH HOISTS BRYAN IN DEATH

The thousands of Democratic voters in the country who are expecting W. J. Bryan to be nominated by the Democratic convention for President are pointing to an unusual exhortation found in the Bethel Cemetery, near this city, at the grave of B. H. Norris.

It is a monument that has stood the storms of at least two Presidential campaigns and still it stands pointing its mute figure of superstition to the fulfillment of a prophecy that has often been made—"that W. J. Bryan will yet be President of the United States."

This unique epitaph reads as follows:

"Kind friend I've left behind, Cast your vote for Jennings Bryan."

Sacred to the memory of B. H. Norris, aged 50 years."

President Taft, W. J. Bryan, J. W. Folk and Champ Clark have all been within a few miles of the monument, yet none of them has ever

IN HARTFORD

The Evidence Is Supplied by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Hartford, what can it be?

Henry Nall, Hartford, Ky., says: "I have used Doan's Kidney Pills for about a year and have found them to be an excellent remedy for kidney complaint. I had pains in my back and in my sides. 'Seeing Doan's Kidney Pills advertised, I procured a box at the Ohio County Drug Co. They did me a world of good and I can therefore recommend them to anyone suffering from kidney trouble."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills—the same that Mr. Nall had—the remedy backed by home testimony, 50c at all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

seen it. On one occasion when Mr. Bryan came here he was told of the monument. The story of how it happened was told in a few words. Mr. Norris was a strong silver man and an admirer of Mr. Bryan. He said when he died he wanted a monument with a silver inscription upon it and the foregoing verse was the result.—[Montgomery City (Mo.) Cor. Chicago Tribune.

THE INFANTILE HABITS OF COUNTRY WEEKERS

Mayor Crump, of Memphis, in a recent address on behalf of children's country week associations, said:

"Astounding is the ignorance of nature shown by these little pale, lean, slum-dwellers. One child, whose knowledge of trees and grass and flowers was derived from the early-closing city parks, said, as she gazed with delight on a green rural scene:

"What time does the country shut up?"

"Another child watched a farm-hand digging potatoes, and said:

"Is this where you keep your potatoes, sir? I should think it would be handier to keep them in bags in the cellar."

"And I know of a third child to whom a farmer offered a superb ripe peach.

"Let me pluck this peach for you right off the tree," he said.

"But the child, a little girl, turned up her nose and answered loftily:

"No, thank you, I never eat them till they're canned."

FAVORS SIX-YEAR TERM AND NO RE-ELECTION

Baltimore, June 27.—If the resolution before the Platform Committee by Senator Gov. McKim, providing for one term of six years for the President, is adopted, the reelection of this Democratic National Convention will be bound by it and the former Governor is confident his resolution will be adopted. Giving some of his reasons for proposing this resolution, Gov. McKim said:

"Great need for such a step developed in the recent Chicago convention in the fight between President Taft and Col. Roosevelt. The President, running for re-election and re-election, uses or his friends use for him, the whole machinery of the Government's powers and patronage to bring about the re-election. The temptation of that situation should be removed by making him ineligible to succeed himself. I am strongly in favor of the six-year term with the ineligibility provision as to any subsequent term."

STRUCK BY LIGHTNING WHILE RIDING IN WAGON

Hopkinsville, Ky., June 27.—Lightning yesterday afternoon struck a wagon in which S. C. Dillard, 28, a farmer, and Sumner Ellis, negro and also a farmer, were fleeing from a heavy rain storm. Mr. Dillard was killed instantly and the negro was knocked insensible and may not recover. They had been working in a wheat field on Mr. Dillard's farm, eight miles west of Hopkinsville. They had just climbed into the wagon and started for home when the bolt fell, splintering the wagon and setting fire to and destroying a shock of wheat. Mr. Dillard leaves a family.

PENSION CLAIMS PROVE TO BE QUITE NUMEROUS

Applications Under the New Law Run Far Above Expectations.

Frankfort, Ky., June 24.—The matter of working out the payment of Confederate pensions under the new Kentucky pension law, is proving a most arduous task and there will be much delay because of the immense number of applications by the survivors of the Lost Cause.

It was first estimated that not over 700 applications for pensions would be made, but already over 900 applications are on file in the pension office here and two or three hundred more are coming in every week. Of course, all the applicants will not be granted pensions because they will not be entitled to them under the provisions of the law. In the first place a man must clearly prove before the County Judge, when, where and in what company he enlisted, how long he served and that he was honorably discharged. If he fails on any of these propositions, he will not receive a pension. If he took the oath of allegiance before the final surrender at Appomattox, he cannot be granted a pension.

It was expected that all the applications would be passed on and the first payment of pension money made to each, by August 5, but many of the applicants will not be paid on that date because the papers cannot possibly be passed on by that time. Capt. W. J. Stone and his assistants have been working night and day almost, to keep up with the necessary steps to be taken before an applicant is granted a pension, but they have been utterly unable to complete the task.

When an application for pension is received here after a hearing before a County Judge, the name of the applicant is sent to Washington to have his testimony compared with the enlistment rolls on file there. Many of the applications will have to be returned to the County Judges for further proof, which will cause delay.

ROOSEVELT GIVES THE SITUATION IN NUTSHELL.

"As far as Mr. Taft and I are personally concerned, it little matters what the fate of either may be. But with Mr. Taft's acquiescence or by his direction, and in his interest, his followers have raised an issue which is all important to this country. It is not a partisan issue; it is more than a political issue; it is a great moral issue. If we condone political theft, if we do not resent the kinds of wrong and injustice that will injuriously affect the whole nation, then not merely our democratic form of government, but our civilization itself cannot endure."—[Theodore Roosevelt.

QUITE CERTAIN THEY'VE FOUND GARDEN OF EDEN

In a lecture delivered at the Plymouth Congregational Church of Brooklyn recently, Prof. Robert W. Rogers claimed to have located the Garden of Eden. He says he "located Eden by four rivers mentioned in Genesis. The Euphrates all scholars know, and the Hiddekel is the Tigris. The other river is called Pison, and means an old river bed. Now, strangely enough, our caravan in crossing from Damascus through the Nineveh and Nippur, found that in the rainy season there was a second great river representing the overflow of the Euphrates, branching off from the regular channel at the point where the river Tigris bends and all but touches the Euphrates. Now the writer says that this river Pison flows through the land where there is much fine gold, and there are the old gold mines, some of which are worked to this day. And he also says that it was the land of the shoham (translated "onyx" in the Authorized Version). No one knows what the shoham was, but I believe it means the pearl, as the mouth of that river and the river bed hold the greatest pearl fisheries in the world. The fourth river is the Gihon, which is translated in the Septuagint as the Nile, and borders the land of Kush. Now there are two lands named Kush that have a Nile. The one is in Africa, and that misled David Livingston—while to-day when the head of our own expedition came to the banks of this very river east of the Euphrates, reined up his horse, and asked the guide what was the name

of the river upon which they were looking down, he made answer that it was the 'Niles.' A circle, therefore, of 100 miles would include all four of these rivers, and it would include the oldest palace, the oldest library, the earliest canals, and the oldest inscriptions known to the human race, and the Garden of Eden."—[Christian Herald.

SUDDEN DEATH WHILE ON VISIT TO FRIENDS

Mr. Thomas Flitts, a farmer of the Glenville neighborhood, died of diabetes Monday evening of last week at the home of Mr. John Hill, near Calhoun.

Mr. and Mrs. Flitts were visiting Mr. Hill and family, intending to stay several days. On Saturday Mr. Flitts, while out fox hunting with Mr. Hill, was suddenly stricken with diabetes, and so severe was the attack that he had to be carried to Mr. Hill's home. Although living for several hours, his life was early despaired of, and he died as stated.

The remains were taken to his home at Glenville. Rev. Cherry, of Calhoun, conducted the burial services from the Glenville Methodist church and the interment occurred in the Glenville cemetery.

Mr. Flitts was 40 years old, and is survived by a wife.

OLD "ROCKPORT" ON THE GREEN

Is Laying Plans to Become Cosmopolitan.

ORGANIZE COMMERCIAL CLUB

Home of Good People and Splendidly Located from Business Standpoint.

HAS GOOD COLLEGE BUILDING

Rockport, Ky., July 1.—This little city, nestled in the hills along Green river, has taken on new life and now bids fair to become one of Western Kentucky's most thriving towns. For unknown years Rockport has slept while other towns grew and prospered. Its business men were usually of the non-progressive and non-advertising type. The result of this long sleep was that the town was practically invisible as you walk up the principal street of the town. The city can at this time lay claim to no special distinction, although it is waking up and in a few weeks there will be "boomtown" in this staid and conservative river village. The business men have at last woken up to the realization that the town needs "boosing" and a Commercial Club has been organized to promote and make a better town out of Rockport. The slogan of the new club will be "A Greater and Better Rockport." The new club was organized a few nights ago with twenty-one charter members, as follows:

John T. Jackson, Mayor; G. E. Bartlett, agent Illinois Central Railroad; E. F. Williams, Chief of Police; P. O. McKlincy, Secretary Rockport Coal Co.; J. L. Mosick, Cashier Rockport Deposit Bank; M. L. Tucker, President Rockport Coal Co.; R. M. Reid, merchant; L. R. Tichenor, printer; Z. Harrel, merchant; A. H. Kevill, merchant; J. Brownling, druggist; L. F. Gibbs, merchant; J. A. Howard, druggist; Addie Austin, Councilman; L. L. Reid, Assistant Cashier Rockport Deposit Bank; William Vernon, of the Red Men; D. E. Rhodes, capitalist; L. G. Haden, merchant; R. D. Robertson, attorney at law; S. L. Finkerson, agent E. & B. Packet Co.; Dr. A. D. Park, physician.

This includes most of the leading and well known business men, and although a number of the other business men did not see fit for various reasons to join the boosing club, they will probably see the error of their way and "line" at the next regular meeting.

Rockport is a beautiful little river city and is located on the main line of the Illinois Central Railroad and also on Green river. It is the home of some of the best people in the State and while it may have its drawbacks, like any other town, it is a fine place to live in, and when the new Commercial Club gets down to business, it will be still better. Rockport can lay claim to one distinction and that is, it is proud of the fact that it is the best governed and policed town in Western Kentucky, bar none.

Within the next few weeks concrete sidewalks will grace the streets and in all probability electric lights and waterworks will be added. A handsome new brick Red Men's hall has just been completed and work on a handsome new brick Methodist church will be started within a few weeks. The new hall is located on the site of the old hotel on Main street, and the new church will be located directly opposite the Baptist church on upper Main street.

Saturday Mr. J. T. Love, a well known capitalist and business promoter of Springfield, Tenn., came to Rockport with the prospect of locating his large business interests here. Mr. Love, in company with Chief of Police E. F. Williams and L. R. Tichenor, the printer, made an inspection tour of Rockport and the Tennessee capitalist expressed himself as very well pleased with the condition of things in Rockport. He was loud in praise of our new col-

lege building and said that never in all his travels had he seen a school building better located than the one we have in this city. Mr. Love is contemplating buying property here, in fact he has a place picked out and if satisfactory terms can be made, he will locate here. Mr. Love is a live and progressive business man and we need men like him.

CALL IS ISSUED FOR MEETINGS OF GROWERS

In Counties of Green River District, on July 6, to Select Delegates.

Calls have been issued throughout the different counties that pool their tobacco with the Green River Tobacco Growers' Association, for a meeting to be held in each of the counties at 1 o'clock Saturday, July 6, for the purpose of electing delegates to represent the different counties at the District meeting that is to be held in Owensboro on Thursday, July 11.

The acreage this year is believed now to be much larger than it was last year and for this and other reasons, it is essential that as many of the farmers as are able to do so, will attend the meetings.

The meetings will be held at the following places: Owensboro, Daviess county; Calhoun, McLean county; Narrows, Ohio county; and Rockport, Spencer county.

The call is as follows:

The regular quarterly county meetings of the Green River Tobacco Growers' Association, Saturday, July 6th, at 1 o'clock, at the following named places: Owensboro, Daviess county; Calhoun, McLean county; Narrows, Ohio county; Lewisport, Hancock county; and Rockport, Spencer county, Ind., for the purpose of electing delegates to represent them at the District meeting to be held in Owensboro, Thursday, July 11th, and to attend to any other business that demands their attention as a county organization.

There is a large crop planted in the District this season and we want to urge the attendance of as many growers as possible at these meetings.

Respectfully,
WALTER A. HERTON,
Sec'y, G. R. T. A.

TAFT GETS SOME LATER "NOTES" FROM CONVENTION

Washington, June 29.—With the return to Washington of many of the Republican leaders who aided in the renomination of President Taft, the President learned for the first time that there were minutes during the Chicago convention when his nomination hung by a thread.

Colonel Roosevelt, according to one leader, had the opportunity within his grasp to stand aside, throw his strength to a compromise candidate and see both himself and President Taft eliminated from the contest.

The President told callers to-day that to Mr. Roosevelt he owed his nomination in 1908, and to Mr. Roosevelt, more than any other

man, he owed his renomination last Saturday night.

Although some of the Taft leaders profess that there never was any danger of defections in their ranks, others are known to have openly talked of a compromise candidate, and to have made advances to some of the adherents of Colonel Roosevelt.

According to the reports brought back to Washington, these offers were turned down.

He would not listen to talk of a third man, and the Taft leaders, seeing no opportunity to "get together," went ahead and renominated the President.

SIMMONS.

July 1.—Simmons and McHenry baseball teams played their second game of ball here Sunday morning. McHenry being the victor by a score of 15 to 6. The game was 6 to 1 in favor of Simmons up until the eighth inning, when McHenry touched the pitcher for fourteen runs in two innings. This is a game anecdote for each team. HOIST FLAG OF TRUCE AFTER LEADER IS SLAIN

Rebels Give In, and the Cuban Revolution Seems Near the End.

Santiago, Cuba, June 29.—The rebellion in Cuba practically came to an end early to-day, when General Evaristo Estenoz, the rebel leader, was killed at Vns Bellaco, six miles from Mecara, in the vicinity of Songo, by Government troops under command of Lieutenant De La Torre.

General Estenoz was killed by Lieutenant De La Torre himself.

On hearing to-day of the death of General Estenoz, the insurgents in the vicinity of Guantanamo Bay hoisted a flag of truce. The United States gunboat Paducah returned to Santiago to-day from the Guantanamo naval station.

General Ivopet's horse, covered with blood, was found on the field of battle. His sword and revolver also were picked up. It is now believed that the General escaped, but his capture is expected at any moment.

The dead include probably, also General Pedro Involnel, whose body, however, has not yet been found.

The body of General Estenoz arrived in this city this morning. Great crowds of people lined the streets as the corpse was taken to the military barracks, where it will be exposed to public view for to-day.

There is great rejoicing in the city over the defeat of the rebels.

PATHTIC CASE OF A HELPLESS LITTLE GIRL

The Owensboro Inquirer of Friday says:

A very pitiful case was brought to the attention of Judge Owen this morning, when an effort was made to have Venita Tignor, the ten-year-old daughter of John Tignor, ordered sent to the home of incurables at Louisville.

The little girl has been helpless ever since she was three years old, being paralyzed below the knees. Miss Olivia Stuart has been acting as committee for the child, and Da-

viness county has been making an allowance of \$6 per month for her support.

The ladies interested in the Mary Kendall home are anxious to have the little girl sent to the home of incurables at Louisville, where it is claimed that she can receive more benefits than she can at home, but this was strenuously objected to by the parents and grandmother, who do not want to be separated from the helpless child.

Judge Owen had a jury of six empaneled, who after hearing the evidence, failed to agree on a verdict. The jury stood 4 to 2 to allow the child to remain with her parents.

Judge Owen then ordered the case continued until next Tuesday morning, when another jury will be empaneled and the case heard again.

The proceedings were instituted by A. B. Bosley on behalf of himself as trustee officer and the Commonwealth of Kentucky.
